

AFRICAN DEMOCRATIC CONGRESS (ADC) • KEBBI 2027 GUBERNATORIAL PROJECT

ABUBAKAR MALAMI (SAN) ELECTION 2027 SITUATION ROOM

Official Parallel Vote Tabulation (PVT) & Statewide Electoral Defense Command

PREPARED FOR: ABUBAKAR MALAMI, SAN, CON

Former Attorney-General of the Federation & Minister of Justice | ADC Gubernatorial Candidate

Official Platform by the Technical Team

Powered by GetoCore Digital Innovation & TEEM TECH Solution (Kaduna's #1 IT Companies with Election Ideas)

Lead IT Technical Officer: Fatima Sulaiman Umar (Hotlines: 08035533332 / 09035328748)

Forensic Audit of 2023 vs. 2027 Winning Blueprint

How APC won via Section 51 manipulation and our ironclad mathematical antidote

1. THE 2023 LOSS TRAP (SECTION 51)

- 45,000-Vote Lead Trap: In 2023, the leading party had a 45k vote lead but election was declared inconclusive because 91,000 PVCs were cancelled.
- Deliberate BVAS Bypasses: Targeted polling units had synthetic over-voting triggered, forcing returning officers to cancel entire wards under Section 51.
- Paper Disconnect: Polling unit agents had paper copies with altered figures at RAC collation centres with zero photographic or GPS timestamp proof.
- Supplementary Defeat: Once forced into a rerun, the state machinery deployed massive security intimidation and won the fragmented supplemental poll.

2. THE 2027 MALAMI ANTIDOTE

- Surplus Margin Buffer (+75k Target): Build a lead margin exceeding the statewide ceiling of cancelled PVCs, legally precluding any rerun declaration.
- Anti-Over-Voting Early Warning: PU Agent PWA forbids result submission if Total Votes Cast exceeds BVAS Accredited count (Section 51 check).
- Dual GPS Watermark: Form EC8A photos are encrypted with coordinates; any upload outside 15m radius is instantly quarantined as tampered.
- Instant Tribunal Dossier: Form EC40G protests filed within 30 minutes with cryptographic timestamps admissible under Section 84 Evidence Act.

4-Tier Hierarchical Electoral Command Architecture

Strict role containment ensuring impenetrable command from 3,745 PUs to State Command

TIER 1: 3,745 PU AGENTS

- 6-Stage phaser reporting: PO arrival, BVAS 000 check, queue cutoff at 2:30pm, counting, EC8A photo upload.
- Strict single-PU scoping.
- Offline local SQLite storage.
- 100% PU coverage statewide.

TIER 2: 225 RA SUPERVISORS

- Ward RAC collation oversight.
- Reconciliation of constituent PUs into Form EC8B.
- Instant Form EC8B CSV export.
- Motorbike rapid escort details.

TIER 3: 21 LGA SUPERVISORS

- Assigned Legal Counsel at each INEC Collation Hall.
- Form EC8C mathematical audit.
- On-site filing of Section 51 protest affidavits to EO.
- Fast-response vehicle details.

TIER 4: STATE COMMAND

- Birnin Kebbi Situation Room.
- Full oversight of all 21 LGAs.
- Live PVT vs IReV disparity audit.
- Sec 179(2) 25% spread tracker.
- Direct channel to SAN Malami.

Proprietary Telemetry Engine (GetoCore × TEEM TECH)

High-concurrency, offline-capable PWA with zero-plaintext cryptographic security

1. OFFLINE-FIRST PWA ENGINE

- Built with Next.js 14, TypeScript and Service Workers for instant mobile performance.
- SAN Malami portrait featured on mobile home screen icon for instant field recognition.
- Operates 100% offline in deep rural/riverine LGAs (Sakaba, Danko-Wasagu, Bagudo).
- Automated sync: queued results upload automatically upon detecting cellular signal.
- Ultra-low battery draw: supports 16+ hours of field operation on a single charge.

2. DUAL GPS & IREV AUDIT

- Dual forensic audit: compares PU agent Form EC8A against public INEC IReV uploads.
- Geo-fence radius $\leq 15\text{m}$ instantly flags illegal remote collation attempts.
- Automated high-speed ingestion of IReV endpoints across all 3,745 polling units.
- Instant discrepancy alerts with Form EC40G court evidence packet generation.
- Admissible electronic exhibits certified under Section 84 of the Nigerian Evidence Act.

3. BILINGUAL AI LEGAL COPILOT

- Intelligent assistant with English and Hausa instant language toggle (EN | HA).
- Role-aware: BVAS restart protocols, Section 51 objections, and photo capture guidance.
- Encrypted SMS/USSD fallback gateway (500,000 SMS capacity) for zero-data zones.
- Toll-free emergency legal dispatch hotline: 0800-ADC-MALAMI.
- Direct panic dispatch: notifies LGA litigation counsel and security details in 60s.

Section 179(2) Spread & Section 51 Margin Strategy

Ensuring constitutional spread across 14+ LGAs and insurmountable lead margin

1. SECTION 179(2) CONSTITUTIONAL SPREAD

- Constitutional Threshold: Requires highest number of votes + not less than 25% of votes cast in at least 2/3 of all LGAs (14 of 21 LGAs).
- Kebbi Central Tactical Fortress (7/7 LGAs): Overwhelming victory in Birnin Kebbi, Gwandu, Jega, Kalgo, Aliero, Maiyama, Bunza.
- Southern Kebbi Coalition (7/7 LGAs): Historic equity alliance delivers Zuru, Danko-Wasagu, Sakaba, Fakai, Yauri, Ngaski, Shanga.
- Northern Kebbi Inroads (6/7 LGAs): Strategic border parity in Argungu, Augie, Dandi, Arewa, Suru, Bagudo.
- Target Achievement: ADC projects meeting 25%+ in all 21 LGAs, eliminating any legal challenge to geographical spread.

2. SECTION 51 SURPLUS MARGIN SHIELD

- The Margin of Lead Rule: If Margin of Lead < Cancelled PVCs, Returning Officer must declare election INCONCLUSIVE.
- Simulated 2027 Projections for Kebbi State:
 - Total ADC Votes: 468,540 (54.5% of total votes cast)
 - Total APC Votes: 341,210 (39.7% of total votes cast)
 - Projected Lead Margin: +127,330 votes
 - Statewide Cancelled PVCs: 52,300 votes
- Net Surplus Safety Buffer: +75,030 votes above cancelled PVCs.
- Statutory Outcome: Decisive first-ballot declaration of Abubakar Malami SAN without rerun risk!

Statewide Implementation Timeline & Simulation Drills

Rigorous step-by-step milestones ensuring 100% readiness prior to Election Day

PHASE 1: PROVISIONING (M-2)

- Custom software deployment & stress testing.
- Khadimiyya Foundation & ADC ward recruitment.
- Printing 4,200 laminated QR-code photo ID badges.
- Procurement of 3,745 backup power banks.
- Birnin Kebbi Command Centre physical outfitting.

PHASE 2: SIMULATION (M-1)

- Zonal training workshops (Central, North, South).
- Dry-run simulation drill across all 21 LGAs.
- Live BVAS zero-reading and mock EC8A upload.
- SMS gateway and satellite comms stress test.
- Serving legal protocols on INEC REC and security.

PHASE 3: E-DAY EXECUTION

- 07:00 AM: Arrival & BVAS 000 verification.
- 02:30 PM: Queue cutoff enforcement.
- 04:30 PM: Form EC8A snapping & telemetry push.
- 08:00 PM: Form EC8B & EC8C live reconciliation.
- 02:00 AM: Form EC8D State Declaration Defense.

Comprehensive Turnkey Budget Breakdown (■329,000,000)

Transparent, itemized capital and operational cost structure across 7 cost centers

ITEMIZED COST CENTERS (NGN ■)

- 1. Polling Unit Agent Network (3,745 PUs + 375 Runners): ■121,725,000 (37.0%)
- 2. Ward (RA) Supervisors & RAC Collation (225 Wards): ■23,625,000 (7.2%)
- 3. LGA Collation & Legal Shield Teams (21 LGAs): ■14,175,000 (4.3%)
- 4. Central Situation Room & Command HQ (Birnin Kebbi): ■37,600,000 (11.4%)
- 5. Software Engine & Telemetry (GetoCore × TEEM TECH): ■50,000,000 (15.2%)
- 6. Field Kits, QR Badges & 3,745 Power Banks: ■44,082,500 (13.4%)
- 7. Legal Shield, CTC Procurement & Contingency: ■37,792,500 (11.5%)
- TOTAL MANDATE SECURITY BUDGET: ■329,000,000 (100.0%)
- Unit Metric: Approximately ■87,850 per Polling Unit for total victory defense.

PHASED 3-TRANCHE DISBURSEMENT

- Tranche 1: Mobilization & Tech Provisioning (40% - ■131,600,000):
 - Due at contract execution (T - 60 Days).
 - Covers platform customization, cloud infra, power banks, badge printing, Birnin Kebbi Situation Room setup.
- Tranche 2: Field Training & Mock Simulation (35% - ■115,150,000):
 - Due upon platform readiness (T - 21 Days).
 - Covers training stipends for 3,745 PU agents + 225 RA supervisors, data recharges, 21-LGA mock simulation.
- Tranche 3: D-Day Operations & Legal Vault (25% - ■82,250,000):
 - Due 5 days before election (T - 5 Days).
 - Covers D-Day honoraria, RAC transport, LGA counsel retainers, 48hr Situation Room ops, CTC legal procurement.

Accountability Controls & Project Commissioning

Guaranteed auditability, zero waste, and immediate next steps for execution

FINANCIAL GOVERNANCE & AUDIT TRAIL

- Biometric / Phone Number Validation: Agent payments disbursed via direct bank transfer tied to verified PVC and accredited PU code. Zero cash leakage.
- Milestone-Linked Escrow: Tranches released strictly upon verified delivery of each phase (e.g. 100% badge verification before Tranche 2).
- Zero-Waste Protocol: Reusable assets (screens, laptops, Starlink terminals, inverters) remain permanent campaign / foundation property.
- Real-Time Expenditure Telemetry: Financial dashboard tracking every disbursement across all 21 Local Government Areas.

EXECUTIVE SIGN-OFF & COMMISSIONING

- Immediate Next Steps:
 1. Formal approval of the ₦329M Budget and 3-Tranche Schedule.
 2. Commissioning of GetoCore Digital Innovation & TEEM TECH Solution as Lead Electoral Systems Architects.
 3. Establishment of the Birnin Kebbi Situation Room facility lease.
- Lead IT Technical Officer: Fatima Sulaiman Umar
- Support Hotlines: 08035533332 / 09035328748
- Confidence Commitment: This architecture guarantees that every vote cast for Abubakar Malami, SAN in all 3,745 PUs is counted, transmitted, and legally defended to the Supreme Court.
